

Lecture 1

Speaker:

Prof. Tomonari Ogata, PhD
Innovative Collaboration
Organization, Kumamoto University

***Studies of Photo-functional
Materials: Modulation of
Polymer Refractive Index and
Photo-mechanical behavior of
liquid crystal
polymer.***

Lecture 2

Speaker:

Prof. Hirotaka Ihara, PhD
Department of Applied Chemistry and
Biochemistry, Graduate School of
Science and Technology,
Kumamoto University

***Supramolecular gel-
functionalized polymer
composite for optical use***

Research-reporting Talk

Speaker:

Ryohei YAGI, Researcher
Graduate School of Science and
Technology, Kumamoto University

***Chiral orientation of achiral
organic dye induced by silica
nanoribbons***

2015 Meeting and seminars on photo-electro materials correlated with the program,

“Global research
collaboration on fabrication
of organic photo-electro
materials by molecular
technology and interfacial
assembling”

*Amphitheater, IECEB,
Université de
Bordeaux, Bordeaux,
France*

11:00-15:00,
March 17th, 2015

- *The Strategic Young
Researcher Overseas
Visits Program for
Accelerating Brain
Circulation for
Kumamoto University
supported from JSPS
(Japan)*
- *Kumamoto University*
- *Université de Bordeaux*

 **Kumamoto University**

université
de **BORDEAUX**
